

Living or moving abroad?
Still in need of services?
Mouthworks can help!

Mouthworks is going International

We offer telepractice services through VSEE and ZOOM, both HIPPA compliant video chat services, free to download where Internet is available. If you are unsure if your school offers the necessary services for your child or student, contact us for more information. We deliver our telepractice sessions through a variety of games, books, activities and crafts to make our sessions feel more like working with an international pen pal than therapy.

Our services include:

- Articulation/phonological disorders
- Stuttering
- Social/pragmatic deficits
- Expressive/receptive language delays
- Reading comprehension difficulties
- Executive function
 - Working Memory
 - Mental flexibility
 - Organization
 - Planning and initiating tasks
- Voice and resonance disorders
